

# Pollution Prevention Partnership

Tennessee's statewide network of households, schools, government agencies, organizations, businesses, and industries, working together to protect our shared environment through pollution prevention.

## Tennessee Green Schools Program

A Tennessee Green School is one that has been successful in pollution prevention through energy and water conservation, waste reduction, responsible purchasing, and elevated environmental awareness among students, staff, parents, and the local community. A Green School can be public or private. Opportunities exist for K-12 schools, as well as for institutions of higher education and specialized learning.

## Walk

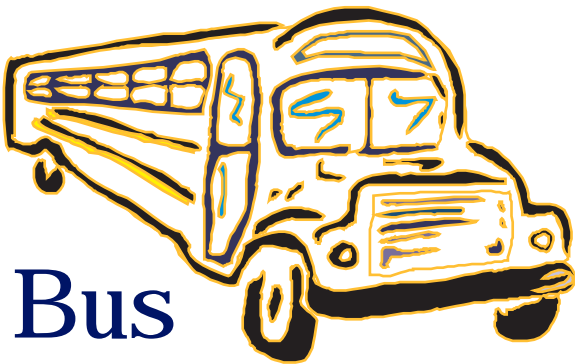

Not only is walking a great way to exercise, it also keeps pollution out of the air we breathe. When you walk and protect our planet remember to:

- Stay on well-lit paths
- Look both ways
- Walk in a group
- Use sidewalks
- Use crosswalks
- Walk against traffic

How many clean air words can you find?

## Bus

When you ride the bus to school or around town, you are promoting cleaner air. Anytime you can travel with many people in one vehicle you will help keep the air clean.

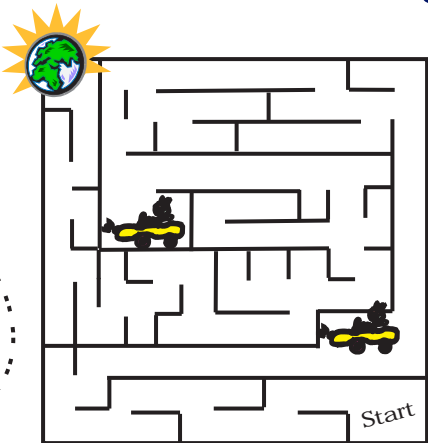

Riding your bike to school or play helps keep our air clean. When you ride your bicycle remember to always:

- Wear a helmet
- Ride with traffic flow
- Wear bright colors
- Make hand signals
- Use reflectors

## Bike

## Carpool

Whether you are going to school or to the store, remember to carpool. That means use only one car with many passengers.

Can you help our carpool get through traffic?

## Hike

Tennessee has greenways, parks, and trails specially designed for hiking, walking, biking, running and rolling.
